

Goal: Full integration into local community interests, operations, planning, and regulation.

Local governments must be required to consider adaptation in all decisions.

We Offer:

- **A Mandate** (from the state, etc.) – Creates responsibility. This could be integrated and reinforced via General Plans. Funding will flow; it should not be a separate issue.
- **Political Will** – Leadership (business, community, political) and integration/inclusion of diverse (and vested) interests.
- **Guidance/Tools** – Specific Indicators, local appropriateness.
